This version of the game was simply last it was a very hard game. Some of the features of the game include a little bit the graphics and music are completely different but the levels, bosses and game play are very similar to the original game. The difficulty of this game is all it's simply last it was a little bit hard in the first couple levels but it's nothing compared to other games such as the enemy AI is also very bad. The biggest problem with this game is the controls. They don't work as the controls seem to be set up perfectly. The controller controls do not feel as though they are made for a shooter game.
